AutoRunner

WEB · MOBILE · API · DESKTOP

AI-Native Test Automation

AutoRunner is an end-to-end test automation product: it creates tests from natural-language steps or requirements, plans them centrally, executes them in parallel and reports. It brings smoke, sanity and regression tests into CI/CD and across browsers.

Key Features

01
Test Creation

- Automated tests from natural-language steps
- Test scenarios from requirements with AI
- Flagging gaps in coverage
- User approval for generated scenarios

02
Test Management

- Planning, execution and reporting on one screen
- Separate test suites for each team
- One management panel for all teams
- End-to-end traceability
- Work tracking: Jira, Slack, Confluence

03
Execution and Integration

- Selenium, Playwright, Appium, Cypress and TestNG tests
- Parallel execution ordered by code changes
- Self-healing tests
- Quality gate in Jenkins, GitLab CI, GitHub Actions and Azure DevOps

PROBLEM	HOW AUTORUNNER SOLVES IT
Disconnected automation tools	All test tools in one place
No single view of test coverage	Planning, execution and results on one screen
Manual regression delays releases	Regression suites run automatically in CI/CD
Release decisions rely on gut feeling	Test results and KPIs drive the decision
Writing scenarios requires coding skills	Test generation with AI from natural-language steps
Management has no view of quality	Ready-made reports for executives

VIRGOSOL

AutoRunner

Results

30%
Faster test preparation

40%
Faster regression

50%
Higher QA efficiency

High
Release reliability

Who It's For

Multi-team companies

Coordination across teams

Companies with frequent releases

Fast, safe releases

Banking, insurance and telecom

Audit-ready test records

Companies using multiple test tools

Selenium, Playwright, Appium, Cypress in one report

Companies consolidating test tools

Existing automation investment is kept

About Virgosol

Virgosol is an AI-native quality engineering company building trust in the age of AI, ensuring digital products run smoothly, securely and at scale. Under the motto "Engineering Confidence," it combines human expertise with AI to analyze, test and monitor digital products from requirements to production. Founded in 2019 and headquartered in Istanbul and Berlin, Virgosol serves more than 100 organizations in sectors such as banking, insurance, telecommunications, e-commerce and aviation, with more than 150 employees and 4 R&D locations.
